Global balanced fund, flexible

MARKET COMMENTARY

The fund price improved by 3.0% in April. By significantly increasing its new business during the first quarter of 2018 (+23.%), Grenke underlines its long-term growth strategy. In addition, the leasing specialist was also able to gain the approval of the European Investment Bank for a low-interest long-term loan. Luxury conglomerate LMVH increased quarterly revenues by 13% compared to the previous year (adjusted for currency fluctuations), and significantly exceeded market expectations. McDonald's, Microsoft and Nemetschek once again reported very strong numbers. L'Occitane, Nestlé and Phillips 66 reported solid results. Linde renewed its commitment to settle with the remaining shareholders in line with a squeeze-out process following the merger with Praxaier. With the completion of the squeeze-out at Euler Hermes, we generated a positive yield for the capital employed, with low volatility. The fund allocation is comprised of 67% shares, 14% bonds and 19% liquidity.

INVESTMENT OBJECTIVE AND - PHILOSOPHY

A0X754 (Cl. A)

In the selection of the fund's positions the philosophy of value investing is combined with an "event-driven value" approach. The aim is to reduce fundamental risks in the selection of the fund's positions by focusing on companies with strong business quality. By business quality the management means business models that stand out for their sustainability, the ability to defend an existing competitive advantage and the capacity to generate high free cash flows. The portfolio is diversified through various types of event and different holding periods. Interest paper and bonds can be added to the portfolio.
