

# ACATIS GANÉ VALUE EVENT FONDS UI

AS OF: MARCH 31, 2016

## Global balanced fund, flexible

### MARKET COMMENTARY

The fund price gained 0.6% in March, but has declined by 1.2% since the beginning of the year. Hermès and Nemetschek reported double-digit growth rates for revenues and profits during the reporting month. Munich RE announced the launch of another share buy-back program valued at EUR 1 billion. Three percent of the share capital are to be acquired after the next Annual General Meeting. Taking into account a dividend yield of 5%, the insurance group is thus distributing 8% of its market capitalisation to shareholders. K+S announced a significant dividend increase, which corresponds to a yield of 6%, although this news is also accompanied by a negative outlook for the 2016 financial year. Apart from these developments, we are also expecting the imminent consolidation of the potash industry. The fund allocation is comprised of 71% shares, 26% bonds and 3% liquidity.

### INVESTMENT OBJECTIVE AND - PHILOSOPHY

In the selection of the fund's positions the philosophy of value investing is combined with an "event-driven value" approach. The aim is to reduce fundamental risks in the selection of the fund's positions by focusing on companies with strong business quality. By business quality the management means business models that stand out for their sustainability, the ability to defend an existing competitive advantage and the capacity to generate high free cash flows. The portfolio is diversified through various types of event and different holding periods. Interest paper and bonds can be added to the portfolio.
