

ACATIS GANÉ VALUE EVENT FONDS

AS OF: MARCH 31, 2018

Global balanced fund, flexible

MARKET COMMENTARY

The unit price decreased by 2.1% in March. It has declined by 1.8% since the beginning of the year. Notwithstanding the volatility in the markets, our companies reported positive news. The world's largest brewer AB Inbev significantly increased profits in 2017 and has announced further increases in the future thanks to price increases, cost savings and synergy effects. Software group Nemetschek expects sales to grow by 15% annually until 2020 while maintaining the same high profitability levels. Oracle was not able to meet market expectations despite a sales growth of 6%. We used the price drop to increase our position. Similarly, we also increased our position in Linde, after the markets reacted negatively to delays in the implementation of the Praxair merger. The fund allocation is comprised of 70% shares, 15% bonds and 15% liquidity.

INVESTMENT OBJECTIVE AND - PHILOSOPHY

In the selection of the fund's positions the philosophy of value investing is combined with an "event-driven value" approach. The aim is to reduce fundamental risks in the selection of the fund's positions by focusing on companies with strong business quality. By business quality the management means business models that stand out for their sustainability, the ability to defend an existing competitive advantage and the capacity to generate high free cash flows. The portfolio is diversified through various types of event and different holding periods. Interest paper and bonds can be added to the portfolio.
