

ACATIS GANÉ VALUE EVENT FONDS UI

AS OF: JULY 31, 2014

Global balanced fund, flexible

MARKET COMMENTARY

The fund price rose by 0.1% in July. It has gained 3.5% since the beginning of the year. Grenkeleasing, L'Occitane and Nemetschek impressed with very good quarterly figures during the reporting period, while Coca-Cola, McDonald's and Takkt were cautious but solid. IBM presented a strong cash flow and a strategic cooperation with Apple. MunichRE benefitted from a low loss burden, which were characteristic of natural disaster statistics during the first half of 2014. Vodafone was able to complete the takeover of cable network operator ONO/ Nara Cable, so that our secured bond experienced a financial rating trigger from B+ to BBB+. We expect an even better rating upgrade for SRLEV, after it initiated the disposition of the company. Our liquidity ratio is 29%.

INVESTMENT OBJECTIVE AND - PHILOSOPHY

In the selection of the fund's positions the philosophy of value investing is combined with an "event-driven value" approach. The aim is to reduce fundamental risks in the selection of the fund's positions by focusing on companies with strong business quality. By business quality the management means business models that stand out for their sustainability, the ability to defend an existing competitive advantage and the capacity to generate high free cash flows. The portfolio is diversified through various types of event and different holding periods. Interest paper and bonds can be added to the portfolio.
