

# ACATIS GANÉ VALUE EVENT FONDS

AS OF: AUGUST 31, 2018

## Global balanced fund, flexible

### MARKET COMMENTARY

The fund price improved by 1.9% in August. It has gained 6.2% since the start of the year. During the reporting month, Warren Buffett announced that Berkshire Hathaway has begun to buy back its own stock, after the buy-back threshold was removed in the previous month. In addition, Berkshire also increased its position in Apple to 252 million shares. Both companies are highly weighted in our portfolio, and they are still attractively valued on the basis of their dynamic growth. Berkshire and Apple improved their quarterly results by 34% and 40% per share, respectively. We used weaker share prices in August for selective purchases at AB InBev, Grenke, L'Occitane and Rio Tinto. The fund allocation is comprised of 59% shares, 9% bonds and 32% liquidity. The cash position provides enough flexibility to take advantage of new opportunities in a permanently volatile capital market.

### INVESTMENT OBJECTIVE AND - PHILOSOPHY

In the selection of the fund's positions the philosophy of value investing is combined with an "event-driven value" approach. The aim is to reduce fundamental risks in the selection of the fund's positions by focusing on companies with strong business quality. By business quality the management means business models that stand out for their sustainability, the ability to defend an existing competitive advantage and the capacity to generate high free cash flows. The portfolio is diversified through various types of event and different holding periods. Interest paper and bonds can be added to the portfolio.
