

# ACATIS GANÉ VALUE EVENT FONDS UI

AS OF: SEPTEMBER 30, 2015

## Global balanced fund, flexible

### MARKET COMMENTARY

The fund price lost 1.3% in September. It has gained 3.9% since the beginning of the year. During the reporting month, Novo Nordisk received FDA approval for its long-term insulin Tresiba and mixed insulin Ryzodeg. These products are supposed to be introduced in the important US market at the beginning of 2016. A weaker performance by L'Occitane was used for additional purchases. The French cosmetics manufacturer, which is listed on the Hong Kong stock exchange, was negatively affected by the withdrawal of capital from emerging markets. The company is also a beneficiary of the effects from the Euro devaluation, along with an increase in high-margin on-line sales and the development of new brands. The skin care brand Erborian opened its second store in September, and is now also represented in Seoul in addition to Paris. The fund allocation is comprised of 56% shares, 29% bonds and 15% liquidity.

### INVESTMENT OBJECTIVE AND - PHILOSOPHY

In the selection of the fund's positions the philosophy of value investing is combined with an "event-driven value" approach. The aim is to reduce fundamental risks in the selection of the fund's positions by focusing on companies with strong business quality. By business quality the management means business models that stand out for their sustainability, the ability to defend an existing competitive advantage and the capacity to generate high free cash flows. The portfolio is diversified through various types of event and different holding periods. Interest paper and bonds can be added to the portfolio.
